Circular
Cities & Regions
Initiative

Funded by
the European Union

This project has received funding from European Union's Horizon
Europe Research and Innovation programme under the Grant
Agreement No 101172887

Funded by the European Union. Views and opinions expressed are, however, those of the author(s) only and do not necessarily reflect those of the European Union or the European Research Executive Agency – REA. Neither the European Union nor REA can be held responsible for them.

ABOUT

ReBoat aims at designing, developing and demonstrating a novel decentralised systemic circular solution, exploiting a mobile, modular, sorting, recycling and reprocessing plant on Boat that will handle waste generation peaks in islands. on demand, locally transforming waste into new products meeting the needs of island citizens and tourists.

OBJECTIVES

- 01** Fostering Creative Recycling and Upcycling
- 02** Engaging the Island Community
- 03** Developing a Decentralised Circular System
- 04** Hosting Events on a Mobile Recycling Hub
- 05** Involving Citizens and Tourists in Solutions
- 06** Creating a Replication Strategy
