ReBoat

This project has received funding from the European Union's
Horizon Europe Innovation Action programme under Grant
Agreement No. 101182350

Funded by the European Union. Views and opinions expressed are, however, those of the author(s) only and do not necessarily reflect those of the European Union or the European Research Executive Agency - REA. Neither the European Union nor REA can be held responsible for them.

ReBoat aims at designing, developing and demonstrating a novel decentralised systemic circular solution, exploiting a mobile, modular, sorting, recycling and reprocessing plant on Boat that will handle waste generation peaks in islands. On demand, locally transforming waste into new products meeting the needs of island citizens and tourists.
